

# Water and/or Wastewater Engineer

## Evans, Bierly, Hutchison & Associates, PA

EBH is a full-service civil engineering and surveying firm committed to providing quality, professional engineering, surveying, grant writing, and program application services. We serve city, county, state, federal, and private clients, completing project types in wastewater, water, transportation, airports, land development, and community enhancements. Some of the industries we have provided services for include commercial, religious, education, industrial, and manufacturing clients.

EBH has been serving our clients since 1951 in Kansas from seven office locations. The strength of EBH is in the value and creativity of our employees and the relationships we build with our clients.

EBH is looking for an experienced or entry-level **engineer** in civil or any engineering discipline to join our team.

### Education

4-year Bachelor's Degree from an ABET accredited school

### Position Location - Kansas

**Great Bend** (preferred), Cimarron, Goodland, Neodesha, Pratt, Hillsboro and Marion

### Job Duties

- Manage and perform routine to complex engineering work related to water and wastewater planning, permitting, design, and construction for clients
- Develop scope, schedule, and budget to meet project goals and objectives by coordinating with other engineers, surveyors and clients
- Incorporate industry materials and changes into project drawings and details
- Coordinate policy and funding opportunities with local, state and federal agencies
- Complete post-construction project closeout and follow-up with client and funding agency
- Set and coordinate client expectations and schedules
- Form Opinion of Probable Costs and quantity takeoff and calculations
- Write specifications using most recent industry and government information
- Written and verbal communication with agency engineers, industry representatives and clients
- Demonstrated ability to work as a team and independently
- All other duties as assigned

### Job Requirements

- 4-year Bachelor's Degree from an ABET accredited school
- 1-4 years of experience for design engineer entry-level; 5-10 years of experience for project manager senior level (preferred water or wastewater experience)
- Proficient in MS Office Suite (Word, Excel, Outlook)
- Proficient in AutoCAD
- Familiar with engineering services concepts, terminology and construction projects
- Written and verbal communication skills
- Desire to be a part of a highly successful team
- Demonstrates personal initiative, positive outlook and desire to learn

EBH offers a competitive compensation package in addition to the following benefits:

- Health/Dental/Eye Insurance – Paid 65% of premium by EBH
- Paid Time Off (PTO)

- Holiday Pay
- Life Insurance
- Health Savings Account (Single level contribution made each month by EBH)
- 401k Retirement Plan
